WE HAVE BEEN IN THE HEART OF THE ERP INDUSTRY FOR THE LAST DECADE.

ERP Industry is deep-sea, but the resources and advertising channels are just that limited. When we first realized the hunger for a rich resource about the ERP industry in 2010 our dream was to build such a platform that would be a reference guide to decision-makers with a strong social media network. This could only be possible if we shared the most accurate and reliable content with our readers. Today ERP NEWS evolved into one of the top online platforms focusing only on the ERP Industry. Over the past decade, ERP NEWS has expanded its global network and reach by following every development closely in the enterprise software industry.

And in 2019 we have added ERP NEWS Magazine to our digital media portfolio which is also continuing to reach out to a worldwide audience. It provides in-depth coverage of ERP technology and product developments. ERP News Magazine is also a unique platform where you can find a compilation of responses from industry experts who contributes to the magazine every month.

Today, leading ERP vendors and partners rely on ERP NEWS to boost their brand in the market using all the digital channels of ERP NEWS. We also create strategic marketing and communication solutions for ERP Vendors. Content creation, SEO, Social Media Promotion are among our expertise.

ERP News is the biggest news and information platform about ERP where the ERP vendors can be visible to the right audience who are trying to make the right choice for them organizations. If you are an ERP vendor, you should not get lost in the huge technology world when you advertise. If you want to focus on the right audience, our team can prepare the most effective brand campaigns in which you can generate leads for your products.
